TEXAS ENTERPRISES, INC.

We're a fifth-generation family-owned and professionally operated company. But family doesn't just describe us, it defines us.

Our employees. Our customers. Our partners. To us, you're family.

Your success drives everything we do.

You're the reason we go the extra mile (and a whole lot further) each and every day.

Providing the most comprehensive catalog of products. Partnering with the top brands and suppliers in the industry. Delivering exceptional customer service, day or night, rain or shine. Creating enduring relationships that ensure quality and consistency.

Because, when it's all said and done, that's what you do for people you care about. Those who matter to you most.

You deliver for them.

TEXAS ENTERPRISES, INC. | FUELED BY FAMILY

We Care. You Matter. **We Deliver!**

Commitment to Brand and Product Integrity

ExxonMobil Fuels & Lubricants and Research and Engineering companies recognize that Brand Integrity, Product Integrity, and customer satisfaction are of primary importance to our success. Our absolute **Commitment to Brand and Product Integrity** requires clear understanding and proactive management of product quality, performance, representation, and regulatory compliance, customer experience, and brand identity. Mindful of our responsibility to the consumers and customers we serve directly and to the channel partners who distribute our products, we strive to understand their requirements and concerns and to merit their business by responding effectively to their needs.

Specifically, we are committed to:

- high-quality products that meet or exceed equipment specifications and consumer and customer needs under all reasonable circumstances;
- services that reliably meet responsible standards of performance, efficiency, and courtesy;
- accurate and sufficient information about our products and services, including details of guarantees and warranties, so that consumers and customers can make informed purchasing decisions; and
- honesty in advertising and other communications.

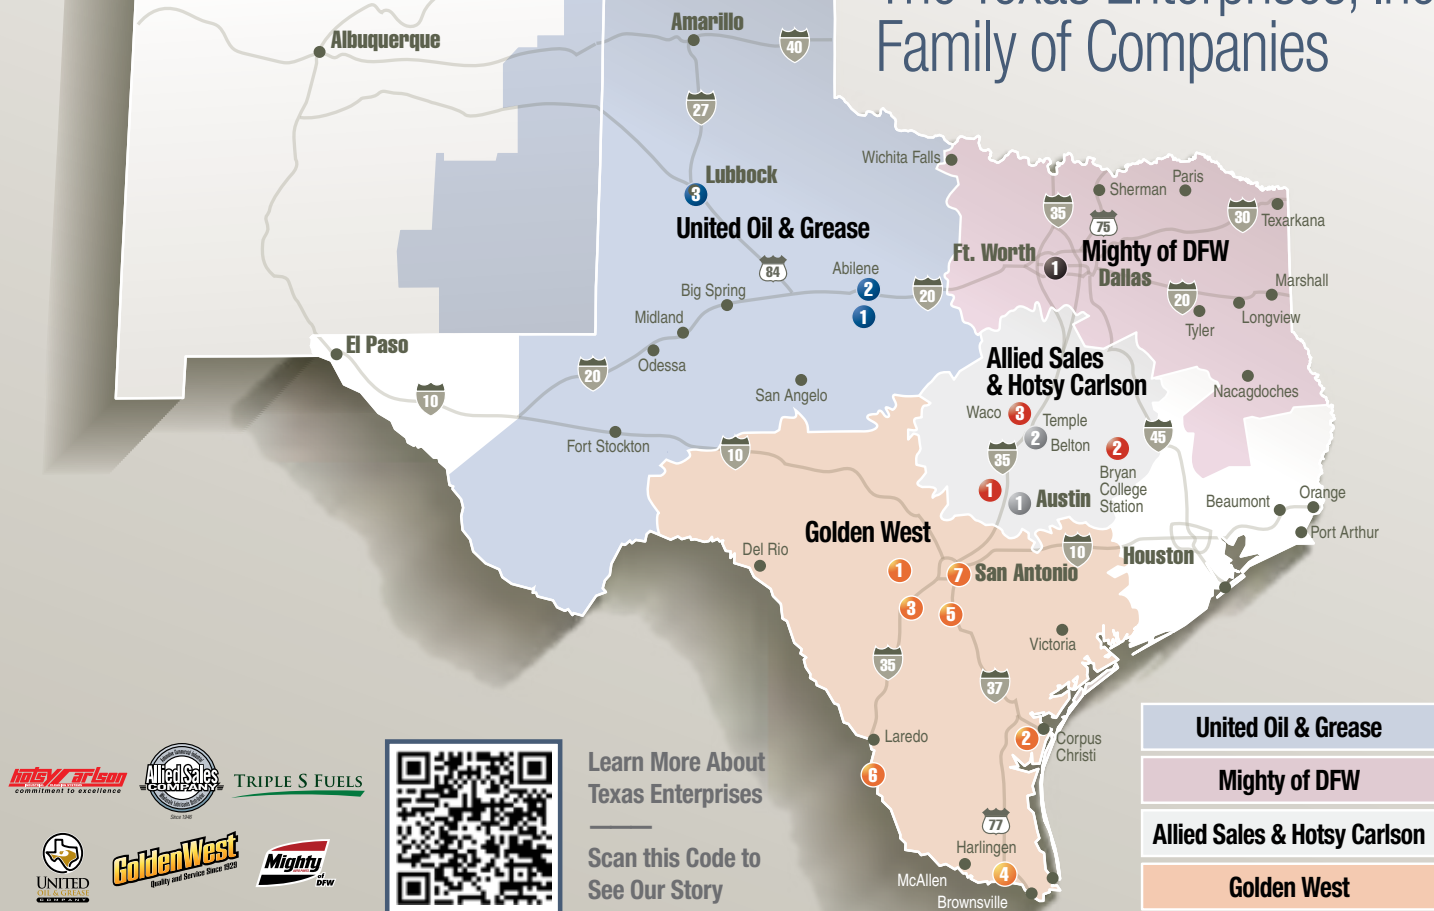

In addition, where products reach the ultimate consumer through independent parties, such as service station dealers and distributors, we work closely with them to ensure brand and product integrity through their operations.

To deliver our **Commitment to Brand and Product Integrity**, we continually evaluate and improve our global brand and product integrity management system framework.

Allied Sales Company opened in the 1940s, offering lubricants and related products to car dealerships, retailers, and more — since then, it has grown into a vital supply hub to the central Texas market. The Austin-based division supports customers with the highest levels of service. The division also operates in Temple, Texas, expanding our reach and providing convenience to the entire mid-state area. Both the Austin and Temple locations serve as delivery hubs to suit the vital business needs of our clients while also acting as retail sites for walk-in customers.

Those we Serve with The Highest Fuel Standards

Triple S Fuels serves many area companies by distributing branded & non-branded gasoline, plus on-road and off-road diesel fuel. We pride ourselves on unparalleled services to the following industries:

- Construction
- Concrete & Asphalt
- School Districts
- Quarries
- Equipment Rental Businesses
- Government Agencies
- C-Stores
- Marinas
- Farming
- Trucking
- Generators
- Disposal
- and Many More

About Triple S Fuels

Triple S Fuels distributes branded and non-branded gasoline and diesel fuel for both on and off road applications to a wide range of businesses in Texas markets. Our commitment to customer service has given us a reputation for reliability. We believe in going the extra mile to ensure complete customer satisfaction. We strive to meet your needs for both affordable and high-quality fuels. Triple S Fuels always stands behind every product and service, making us your partner of choice. With our employee longevity and family values, we have the people and the experience to serve the fuel needs of your business. We look forward to becoming your full service fuel provider or fuel carrier of choice.

For any of your fuel needs, call toll free: 800-284-2432

The number of stars indicates relative performance levels within the Mobil Delvac™ product range.

*Compared to an SAE 15W-40 engine oil. Actual savings are dependent on vehicle/engine type, outside temperature, driving conditions and your current engine oil viscosity.

†Results may vary based on vehicle/engine condition, driving and environmental conditions. Consult OEM or ExxonMobil before implementing extended ODI's.

Heavy-duty technology for all of your heavy-duty equipment

Excavators? Loaders? Haul trucks? We've got you covered.

Mobil Serv™

Boosting uptime

Mobil Delvac 1™ ESP 0W-40, 5W-30, 5W-40 (CK-4) **Mobil Delvac 1™ Advanced Fuel Economy 5W-30 (FA-4)**

Advanced full synthetic oils that demonstrate:

- Extended oil drain interval (ODI) potential up to 3X the average OEM ODI recommendation*
- Long engine life and reliable operation in a wide range of applications
- Emission system protection

Mobil Delvac™ Extreme 10W-30, 15W-40 (CK-4) **Mobil Delvac™ Extreme FE 10W-30 (FA-4)**

Synthetic oils that deliver:

- Extended ODI potential up to 2X the average OEM ODI recommendation*
- Up to 46% more antioxidant and 44% more anti-wear additive than Mobil Delvac™ 1300 Super
- Exceptional oxidation stability†

Mobil Delvac™ 1300 Super 10W-30, 15W-40 (CK-4) **Mobil Delvac™ Super FE 10W-30 (FA-4)**

Synthetic blend oils that provide:

- Extended ODI potential up to 1.5X the average OEM ODI recommendation*
- Stay-in-grade shear stability and excellent low-temperature pumpability
- Excellent soot and viscosity control

Mobiltrans™ AST Series

- All-season lubrication for all drivetrain components
- Helps deliver extended drain and service intervals
- Formulated for long clutch and wet brake life; meets Cat TO-4M specification

Mobil™ DTE 10 Excel Series

- Outstanding wear protection and system cleanliness
- Excellent oxidation and thermal stability
- Energy efficiency potential to reduce fuel expenses

Reducing maintenance

Mobiltrans™ HD Series

- Viscosity grades for hydraulic, transmission and drivetrain applications
- Formulated for long clutch and wet brake life; meets Cat TO-4 specification
- Excellent gear and bearing protection

Mobil™ Hydraulic 10W

- Excellent performance in a wide range of hydraulic systems
- Protection against oil thickening, high-temperature deposits, varnish and oil degradation
- Good performance at higher temperatures and extended operating intervals

Mobil Centaur™ XHP Mine Series

- Excellent extreme-pressure protection and load-carrying ability for equipment protection under heavy and shock loading
- Excellent high-temperature oil bleed control
- Advanced polymer additive package resists water washout

Mobil Centaur™ Moly Grease

- Excellent extreme-pressure protection and load-carrying ability
- Enables extreme-pressure performance retention and protection in severe sliding situations
- Provides exceptional water resistance and corrosion protection

Mobilfluid™ 424

- Exceptional performance in powertrain transmissions, drive axles, clutches, power take-offs (PTOs) and hydraulic systems
- Enhanced frictional properties help reduce chatter in wet brake and PTO service
- Multipurpose capability provides opportunity for lubricant consolidation

*Average OEM ODI recommendation based on recommended oil drain intervals from major U.S. engine manufacturers using API CJ-4 oils for a variety of service severity levels and engine models. Average OEM ODI API CJ-4 recommendation to substantiate multiplier claims is 31,750 miles. Results may vary based on vehicle/engine condition, driving and environmental conditions. Consult OEM or ExxonMobil before implementing extended ODIs, especially if the equipment/vehicle is under the OEM's warranty.

†Based on an analysis of Volvo T-13 engine test results.

Introducing the next generation in energy-efficient productivity.

Get more from your hydraulic machinery than ever before with new Mobil DTE 10 Excel Series. Engineered to better address the lubrication demands of a new generation of high-pressure industrial and mobile equipment, Mobil DTE 10 Excel Series helps lift cleanliness and efficiency to new heights — as it helps lower operating costs. Which adds up to increased productivity.

Surpassing even the standard-setting Mobil DTE 20, Mobil DTE 10M, and Mobil DTE Excel hydraulic oils, known for their long life and keep-clean performance, new Mobil DTE 10 Excel Series is truly the new standard in hydraulic oils. These state-of-the-art, patent-pending lubricants represent the latest in hydraulic fluid technology and can offer great advantages:

- **Dramatically increased hydraulic efficiency, up to 6 percent better than standard products** — Helping reduce energy and fuel consumption, and increase machine productivity.*
- **Visibly better system cleanliness** — For longer productive operation and decreased machine maintenance.
- **Outstanding durability** — For longer oil drain intervals and increased equipment protection.

So whether you manufacture plastics components or operate hydraulic-powered excavators or marine equipment, help reduce your power consumption and increase your machine output with Mobil DTE 10 Excel Series — a breakthrough that won't just make your machines run but will help them fly. On less energy, we might add.

* Results are based on a controlled laboratory test and may vary depending on operating conditions.

Mobil SHC industrial lubricants — better for your machines, better for your business.

Protect your equipment, ensure productivity.

Mobil SHC synthetics last up to 8 times longer than mineral oils by providing excellent high-temperature stability and oxidation resistance while maintaining viscosity in extreme temperature conditions.

As the complexity of machinery increases, so do the demands made upon your lubricant. Mobil SHC lubricants can better address these demands as compared to mineral oils. With your equipment being a vital asset, it makes good business sense to protect it, and prolong its life, as best as possible. Mobil SHC, Mobil's premier line of scientifically engineered synthetic performance oils, helps provide better equipment protection, extends oil life, and enables problem-free operation. Supported by an advanced used-oil analysis program, Mobil SHC lubricants stay on the job up to 8 times longer — and by increasing productivity, they help increase profitability.

Benefit from synthetic performance lubricants pioneered by Mobil.

For more than 40 years, Mobil has been a leader in developing synthetic-performance lubricants — offering innovations beyond the capabilities of conventional oils. When conditions are severe, such as extremely high and low temperatures, heavy loads, and high or low speeds, Mobil SHC lubricants — engineered with tailored properties — provide distinct advantages, helping to extend the service life of machine components and reducing oil changes, as well as potentially reducing or eliminating equipment failure and unscheduled shutdowns. Plus, in most operating conditions, Mobil SHC offers an extended drain interval over mineral oils for added peace of mind.

The Mobil advantage: lubricating productivity.

Severe conditions, extreme temperatures, loads and pressures, moisture, excessive oil feeds, contamination — these all affect your machinery. Mobil SHC lubricants are designed with these factors in mind, whether for your gears, compressors, or bearings.

Extended oil life — Mobil SHC lasts up to 8 times longer than mineral oils providing excellent high-temperature stability and oxidation resistance.

Extended equipment life — Mobil SHC protects your capital investment against rust, corrosion and wear. Stability in extreme temperature conditions.

Reduced energy consumption — Mobil SHC can reduce power consumption up to 8 percent compared to mineral oils in some gearbox applications.

More productivity, more profitability — Mobil SHC can potentially lower the cost of operations, increase efficiency, and put profitability on an upward path.

Backed by equipment builders worldwide — Mobil SHC is endorsed for use in over 5,800 applications by more than 1,100 major equipment builders around the world.

Applying Mobil SHC to your industry.

From power generation to general manufacturing, forest products to cement, steel to construction, every industry can utilize and benefit from Mobil SHC — with lubricants tailored for hundreds of applications — to ensure trouble-free operation.

More than a lubricant: a business tool.

There is no question that optimum lubrication can help significantly improve productivity and reduce maintenance costs. Despite higher purchasing costs, the correct application of synthetics can make good economic sense when you consider the benefits of Mobil SHC lubricants against other lubricant choices. With your oil cost accounting for only a small percentage of your total maintenance cost, investing in Mobil SHC can help reduce your overall maintenance budget.

So rely on Mobil SHC to help your machinery produce more, better, faster, with more uptime and greater efficiency. Discover how Mobil SHC can help you cut down on your manpower costs, drive up your productivity — and help your business soar.

Heavy-duty engine oils for today's low-emission engines

Discover what Mobil Delvac-branded lubricants can do for your fleet. Contact your ExxonMobil distributor today or visit **MobilDelvac.com** for more information.

ExxonMobil

The Mobil Delvac™ family of heavy-duty diesel engine oils provides performance and protection that can help extend engine life.

Key benefits:

- Dependability that comes with extreme-temperature performance and outstanding protection against engine wear
- Efficiency and cost savings from improved fuel economy potential and extended oil drain interval capability

Plus, Mobil Delvac products fit a variety of applications. No matter what's in your fleet, Mobil Delvac lubricants can provide the protection you need.

Get ahead of the curve and switch to low-viscosity products

Mobil Delvac™

Performance by ExxonMobil

5 reasons to upgrade now

1. Increase your bottom line
Low-viscosity lubricants can help engines run more efficiently – reducing fuel consumption and saving you money.
2. Meet the latest emissions standards
Low-viscosity lubricants contribute to the EPA's greenhouse gas reduction strategy and are designed to meet the latest API heavy-duty diesel engine oil category standards.
3. Align with industry leaders
Many industry-leading companies like Schneider, Dot Transportation and Pride Transport already use low-viscosity lubricants to achieve their sustainability and financial goals.
4. Meet OEM recommendations
Major original equipment manufacturers (OEMs) – including Detroit, PACCAR, Volvo and Mack – continue to expand their use of low-viscosity oils for factory and service fills.*
5. Take advantage of ExxonMobil expertise
Technically knowledgeable and experienced ExxonMobil reps and distributors can help you and your fleet effectively transition to low-viscosity lubricants and help maximize fuel economy benefits.

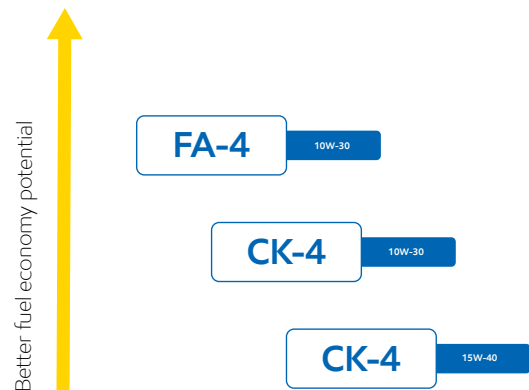

*Consult individual OEM recommendations for allowable use of API FA-4 oils.

How do the API specifications impact Mobil Delvac™ products?

Better efficiency and protection

- Mobil Delvac heavy-duty diesel engine oils deliver even more wear protection than past formulations.
- API FA-4 formulations have undergone extensive testing to help deliver enhanced fuel economy benefits.*
- API CK-4 formulations offer an increase in fuel economy potential when using lower viscosity 10W-30 oils.†

Learn more about what Mobil Delvac-branded lubricants can do for your fleet. Contact your ExxonMobil distributor today or visit MobilDelvac.com for more information.

*Consult individual OEM recommendations for allowable use of API FA-4 oils.
†Compared to an SAE 15W-40 engine oil. Actual savings are dependent on vehicle/engine type, outside temperature, driving conditions and your current engine oil viscosity.

Mobil Delvac™ 1300 Super

Run your business with confidence

In the new era of API CK-4, Mobil Delvac 1300 Super heavy-duty diesel engine oil delivers advanced heavy-duty protection for both gas and diesel engines.

With its cutting-edge performance and long engine life capabilities, you can rest assured that Mobil Delvac 1300 Super heavy-duty diesel engine oil will give your trucks the protection they deserve for the road ahead.

Key benefits:

- Excellent antiwear protection
- Outstanding high-temperature performance
- Outstanding oxidation stability
- Excellent soot and viscosity control
- Potential to improve fuel economy¹ (Mobil Delvac 1300 Super 10W-30)

Guaranteed protection against oil-related engine failure²

Helps keep engines running strong:

Mobil Delvac 1300 Super heavy-duty diesel engine oil provides superb oxidation stability, exceptional soot and viscosity control, and excellent oil consumption control. That translates into:

- Extended ODI capability and reduction of low-temperature sludge buildup and high-temperature deposits
- Greater engine efficiency, long engine life, and long oil life
- Lower oil costs due to less makeup oil during operation

More protection to help maximize engine life

- 50% more wear protection than required in API CK-4 engine tests
- Extended ODI potential up to 1.5x the average OEM ODI recommendation³

For more than just diesel engines

Mobil Delvac 1300 Super heavy-duty diesel engine oil is compatible with gas engines requiring API SN and diesel engines requiring CK-4.

¹ Relative to conventional 15W-40 engine oil. Actual fuel economy improvement is dependent on vehicle/equipment type, outside temperature, driving conditions, and your current fluid viscosity.

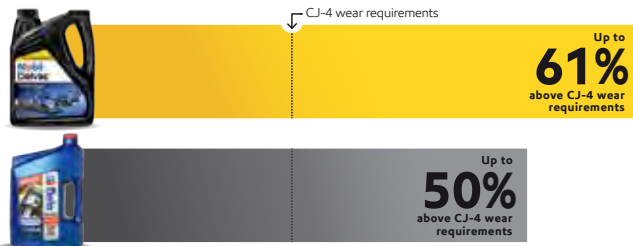

² See limited warranty for full details.

³ Average OEM ODI recommendation based on recommended Oil Drain Intervals from major U.S. engine manufacturers using API CJ-4 oils for a variety of service severity levels and engine models. Average OEM API CJ-4 ODI recommendation to substantiate multiplier claims is 31,750 miles. Results may vary based on vehicle/engine condition, driving and environmental conditions. Consult OEM or ExxonMobil before implementing extended ODIs, especially if the equipment/vehicle is under the OEM's warranty.

Tested and proven.

Our 10W-30 beat their 15W-40.

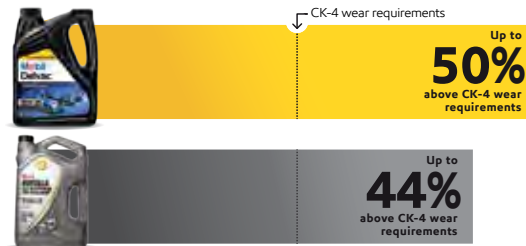

Mobil Delvac 1300 Super 10W-30 vs. Chevron Delo 400 SDE 15W-40

Based on results from Cummins ISM Crosshead Weight Loss, mg compared to API CJ-4 maximum wear level.

Putting more wear protection in every bottle.

Mobil Delvac 1300 Super vs. Shell Rotella T5

Based on average value from a series of eight API CK-4 industry wear tests.

Our advances in lubricant technology have enabled significant enhancements in wear protection. Mobil Delvac 1300 Super delivers:

- The fuel economy potential of a 10W-30
- The enhanced wear protection of a 15W-40

Why pay more for an engine oil that provides less wear protection? Mobil Delvac 1300 Super provides:

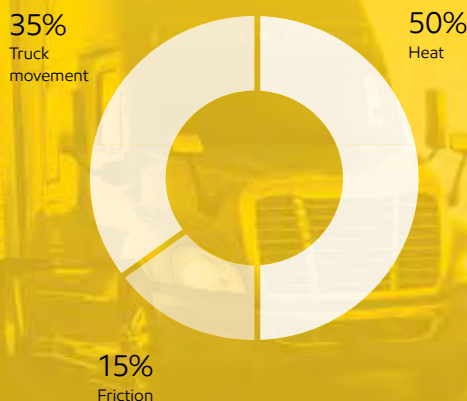

- More wear protection than our competitors' synthetic blends
- Up to 50% more wear protection than required in API CK-4 engine tests

A quick help guide

Fuel economy and fuel-efficient lubricants

Fuel is a leading operating cost for fleets, yet only 35% of fuel's energy is used to move a truck. That's because half of fuel's energy is lost as heat and another 15% is lost as friction.* Although friction cannot be completely eliminated, there are ways to reduce friction losses to help increase fuel economy.

Distribution of fuel energy

Meets or exceeds the requirements of:	15W-40	10W-30
API CK-4, CJ-4, CI-4 PLUS, CI-4, CH-4/SN	✓	✓
ACEA E9, E7	✓	✓
Caterpillar ECF-3	✓	✓
Cummins CES 20086, 20081	✓	✓
Isuzu DEO (w/DPD-equipped vehicles)	✓	✓
JASO DH-2	✓	✓
MAN M 3275-1	✓	
Approved by the following OEMs:	15W-40	10W-30
Detroit Fluids Specification 93K222, 93K218	✓	✓
Deutz DQC II-10 LA	✓	✓
Mack EOS-4.5, EO-O Premium Plus	✓	✓
MB-Approval 228.31	✓	✓
Renault Trucks RLD-3	✓	✓
MAN M 3575	✓	✓
Volvo VDS-4.5, VDS-4	✓	✓

*Consult individual OEM recommendations for allowable use of API FA-4 oils.
*Compared to an SAE 15W-40 engine oil. Actual savings are dependent on vehicle/engine type, outside temperature, driving conditions and your current engine oil viscosity.

Simplify your grease lubrication program

How to find and eliminate sources of complexity

Where do you find complexity?

Complexity appears in many forms in a grease program, all of which could be impacting your costs, productivity, and

equipment efficiency. Below are some common examples of where it shows up.

Too many greases

- Risk of using the wrong grease for a particular piece of equipment increases
- Product mixing leads to unplanned compatibility experiments

Over-greasing or under-greasing

- Too much grease can damage seals and cause excess heat
- Too little grease can cause lubricant starvation
- Both stem from lack of training and clarity in a grease program

Storage and handling

- Inefficient inventory practices drive up cost on the shelf
- Labeling challenges are caused by multiple brands, and too many products lead to misuse

Multiple vendors

- Makes purchasing processes inefficient and complicated
- Conflicting product and use recommendations cause unnecessary confusion

Right-size your grease program

Eliminating complexity from each of these categories can reduce downtime and increase productivity.

Our grease experts can help

Ask your ExxonMobil representative or Authorized Distributor to perform a lubrication assessment to uncover opportunities to simplify your grease program.

Providing Unique
Solutions to

CLEAN

EVERYTHING YOU NEED — AVAILABLE FOR SALE OR RENT

Pressure Washers

Hotsy is the No. 1 brand of pressure washers, offering both hot-water and cold-water pressure washers as either portable or stationary units. With a selection of equipment that runs on electricity, gasoline, diesel, or even natural gas LP, Hotsy Carlson has more than 120 different models to choose from to meet your most challenging cleaning needs.

Detergents Are Vital

Detergent are essential for proper cleaning. Texas Enterprises offers specially formulated detergent solutions to provide extra cleaning power when blasting away dirt, grime, grease, salt, and more from a variety of surfaces. No matter what you clean, you can clean it better and faster with the right detergent.

Steam Cleaners

Steam delivers a low-water, high-temperature way to break up soil, grease, and grime. Plus, steam can naturally sanitize while eliminating the need for large water tanks or wastewater collection. Learn how Optima Steamers can help.

Every Accessory You'll Need

With a full range accessories, Texas Enterprises offers solutions to make any cleaning job easy and efficient.

More Than Equipment & Detergent

Texas Enterprises offers more than the equipment and detergent you need for the cleaning problems you face. Our decades of experience, mean the professional advice you need to make the right choices for your business — and your budget.

Cuda Water-Based Parts Washers: A safe, automatic, solvent-free parts washing solution.

Thinking about a green alternative? Consider Cuda Automatic Parts Washers — a low-hazard, low pollution water-based cleaning solution for any industry that washes parts and components.

Rugged, high-capacity Cuda Automatic Parts Washers use pressurized hot water and specialized industrial detergents to safely blast away dirt, grease and grime, all while offering businesses a green solution.

Cuda “Green” Benefits:

- No noxious fumes for employees to breathe
- Emits no exhaust into the air
- Uses solvent-free detergents
- Consolidated and cleans many parts at once, conserving water
- Skims free oils from wash water and prolongs the life of wash water
- Roll-in door prevents water spills onto shop floor
- A self-contained cleaning system
- Keeps hands out of harmful wash solution
- No respirators needed
- No eye protection needed
- Tested safe for city sewer water discharge

No Solvents

Solvents - along with their health risks and disposal problems - are a thing of the past. Replace your solvent tank with a Cuda Parts Washer and get a safer and better cleaning alternative.

Why Choose Cuda?

Performance - Cuda specializes exclusively in parts washers and accessories. You can count on Cuda to be the innovators in parts washers. The bottom line is you not only get top performance, you get more standard features and options that with any other brand.

Available in Front-Loading and Top-Loading styles.

Visit www.hotsycarlson.com for more information

WARNING: Laundered Shop Towels May Contain Toxic Heavy Metals.

Switch to WYPALL* Wipers: A Safe, Cost-effective Alternative to Laundered Shop Towels.

WYPALL* Wipers are tough on workplace messes, convenient to use, and safely disposable. That means every time your employee grabs a wiper, you don't have to worry about the possibility of heavy-metal exposure.

With WYPALL* Wipers you get a consistent size, shape and cleanliness with each towel. Our wipers are engineered to feel like cloth but work better.

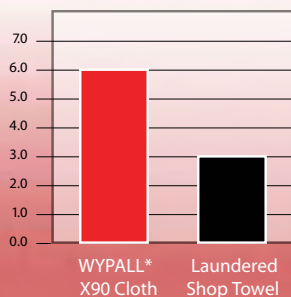

- Absorbs oil and water faster, pound for pound, than laundered shop towels
- No holes, strings, metal chips, or metal residues like laundered shop towels
- Reusable, durable, and maintains strength in solvents

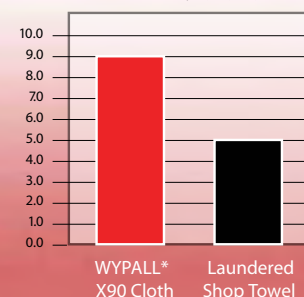

Recent studies highlight the danger. Shop towels go back and forth from the laundry to a variety of industries, where they could pick up toxic heavy metals and retain them even after laundering.

WYPALL* X90 Cloths absorb both water and oil faster than laundered shop towels

Water Capacity g/g (gms/gms)

Motor Oil Capacity g/g (gms/gms)

Average results reported. Results for laundered shop towels based on random sample from across continental U.S.

MOVING YOUR WORLD

FOR US, THE SKY'S NO LIMIT.

Phillips 66® X/C Aviation Oil is an ashless dispersant, multi-grade engine oil specially formulated for year-round use in aircraft piston engines. The ashless dispersant formulation helps minimize the formation of engine sludge, varnish, piston deposits and combustion chamber deposits, resulting in a much cleaner engine compared with the use of straight (non-dispersant) mineral oils.

Insight**

Mighty *The Mighty Story*

Mighty Auto Parts headquartered in Atlanta, Georgia, is a sales and service provider and distributor of OE Quality/Tier 1 manufactured preventive maintenance auto parts, lubricants and chemicals to the global automotive aftermarket.

+ 1963

Dallas "Dick Wallace" started selling tire repair products in the Washington D.C. area. This innovative and efficient distribution model grew into a network of local and regional distributors known as the Mighty Distributing System.

+ 1970

Mighty employed the franchising model, recruiting independent owners for growth and expansion.

+ 1993

Automotive-related service companies began adding franchises to their company portfolios. We expanded internationally in 2009.

+ Today

Mighty supports 15,000 automotive service facilities, including: independent repair shops, quick service specialists, tire stores, new car dealers and fleets.

Mighty has been trusted since 1963 and dedicated exclusively to the automotive professional.

Mighty goes above and beyond by providing the following:

OE-Quality Products

**UNDERHOOD | UNDERCAR
CHEMICALS | LUBRICANTS
SHOP SUPPLIES**

Mighty specializes in preventive maintenance products sourced from OE suppliers around the world to meet the highest quality criteria at the most competitive prices.

Mighty's award-winning electronic catalog includes manufacturer recommended maintenance schedules, repair instructions, fluid capacities, belt routing guides, cabin air filter installation instructions, and more.

Inventory Management

PERSONAL SERVICE ORGANIZED STOCKING SYSTEMS

Mighty keeps your inventory up-to-date, allowing your techs to concentrate on what they do best!

Our full-service stocking program includes:

- + 100% obsolescence protection
- + Regular personal visits
- + In-store training, seminars, and certification programs
- + MICPlus (award-winning electronic catalog)
- + Print catalogs, Tech Tips, service bulletins
- + Point of Sale items: displays, posters, banners
- + Cabinets and racks to keep your inventory organized and, more importantly, easy to find

GoldenWest
Superior Since 1929

From Filling Stations to Filling the Need for Great Products at Competitive Pricing

The GoldenWest Brand of products originated as a regional brand in central and south Texas in 1929. Based in San Antonio, Texas, Golden West Oil Company operated a chain of "filling stations" that flew the GoldenWest flag with street signs displaying the brilliant sun with golden rays against a blue background.

The Ford Smith family of Austin, Texas purchased the lubricant and parts business of Bantham Distributing in 1960, then in 1974 merged with Golden West Oil Company, steadily developing the brand deeper into the Texas market. GoldenWest was consistently positioned as a quality fighting grade line.

In the 1970s, the GoldenWest Brand was expanded to include a complete line of lubricant products. As a strongly established regional brand, GoldenWest is well accepted in automotive, industrial, and agricultural markets.

Today our engine oils proudly display the API and ILSAC seals of approval. The line now includes synthetics, greases, and aerosol chemicals. All these are still offered today as a fighting grade alternative to major brand products.

Signature BY **GoldenWest**
LUBRICANTS Superior Since 1929

Product Warranty

L I M I T E D W A R R A N T Y

GoldenWest Products Limited Warranty

GoldenWest Products warrants its products to be free from defects and will replace any product that is defective. For all applications, follow the recommended maintenance and fluid change schedules provided by the manufacturer(s). GoldenWest Products warrants that all products will perform to their specifications when used in accordance with the proper instructions for use. Products used in applications other than the intended use will not be covered by this warranty.

GoldenWest Products provides this limited warranty to purchasers who use GoldenWest products.

If there is equipment failure related to the GoldenWest product you purchased, GoldenWest will repair any equipment damage directly caused by a defect or a malfunction of a GoldenWest product, provided that the product was selected and maintained in accordance with specifications of the original equipment manufacturer or the written instructions (which includes product packaging) of GoldenWest Products.

To file a claim under this Limited Warranty, you must:

1. Upon discovery of the damage (but not later than 6 months from the date the damage occurred) call your local GoldenWest distributor from whom you purchased the product.
2. Allow a GoldenWest representative to examine the equipment and maintenance records and provide proof of purchase to determine the extent of the damage and to confirm that a GoldenWest product was the cause.
3. Allow a GoldenWest representative to obtain a sample of the product in question for analysis at no cost to you to assist in determining the cause of the equipment failure.

This Limited Warranty excludes:

- GoldenWest products used in mechanically deficient equipment as a result of abnormal operation, negligence, abuse, damage from casualty, shipment or accident, or equipment modification done without written authorization from the Original Equipment Manufacturer (OEM).
- Situations where the OEM required standards do not match those stated by GoldenWest without written approval from Texas Enterprises, Inc.
- GoldenWest products that have been used in conjunction with any other product or additive without written approval from Texas Enterprises, Inc.
- Failure of equipment due to a pre-existing condition that is unrelated to the use of GoldenWest products.
- Repair or replacement of equipment due to normal wear.

The remedy provided here will be your only recovery against GoldenWest Products. You will not be able to recover incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

GOLDEN WEST: A COMPLETE LINE OF LUBRICANT PRODUCTS

SIGNATURE LUBRICANTS

The Signature Rack Stand SPACE-SAVING DISPLAY

Designed to make your shop more efficient and ultimately more successful, the Signature Rack Stand provides your customers a wider variety of products and grades to meet their needs. Our rack stand allows convenient access to your favorite Signature products, so you can maintain a cleaner shop and create a strong brand awareness with your customers.

- Fits in tight areas while allowing easy access
- Eliminates the hassles of using quart bottles
- Provides maximum storage efficiency
- Keeps your products organized
- Provides great visibility leading to more sales
- Installs easily and quickly
- Reduces product damage
- Elevates the Signature brand
- Environmentally friendly

Premium Universal Tractor Fluid

Multifunctional Use in Farm Tractors and Equipment

Benefits

- Lowers operating costs
- Reduces brake chatter and transmission slips
- Minimizes weather and storage concerns
- Extends equipment life

Product Application:

GoldenWest Premium Universal Tractor Fluid is a high quality, multi-functional tractor hydraulic fluid, specially formulated for use in transmissions, final drives, wet brakes, and hydraulic systems of tractors and other equipment employing a common fluid reservoir.

It is formulated with highly refined base stocks, a viscosity index improver, oxidation and corrosion inhibitors, anti-wear and film strength additives, an anti-foaming agent, and a pour point depressant.

GoldenWest Premium Universal Tractor Fluid is recommended for use as a multi-functional fluid in many types of farm tractors and equipment; in non-hypoid GL-4 applications; in applications which call for the following OEM lubricant specifications:

- AGCO: improved power fluid 821XL
- Case Corporation: JIC-143, JIC-145, MS 1206, MS 1207, MS 1209, MS 1210 (TCH)
- Case New Holland: MAT 3525, MAT 3505
- Caterpillar: TO-2
- Ford New Holland: ESN-M2C134-D, FNHA 2, C 201
- International Harvester: B6
- John Deere: J20C
- Kubota: UDT
- Massey Ferguson: M1135, M1141, M1143, M1145
- Minneapolis-Moline: Q-1766, Q-1722, Q-1766B
- Oliver: Q-1705
- Renk Doromat: 874A and 874B
- Volvo: WB 101
- White Farm Equipment: Q-1826
- ZF: TE-ML 03E, TE-ML 05F, TE-ML 17E, TE-ML 21F

TechSYN Full Synthetic dexos1™ Gen 3 GF-7A Motor Oils 0W-20 • 5W-30

API SQ/SP/SN/SM • ILSAC GF-7A

Benefits

- Provides protection conventional oils can't
- Superior protection against normal engine wear
- Outstanding low and high-temperature performance
- Our highest level of protection for thermal and oxidation stability
- Formulated for extreme driving conditions
- Outperforms conventional and synthetic blends
- ILSAC GF-7A Resource Conserving

Product Application:

GoldenWest Signature TechSYN dexos1™ Gen 3 Motor Oil is a fully synthetic, top-tier, high detergent automotive engine oil specially formulated to meet the stringent lubrication requirements of today's and tomorrow's engines. It meets API SP, which is required for 2012 and later engines. Synthetic base oils combine with carefully selected additive packages to provide maximum protection against wear, rust, corrosion, oxidative thickening, acid formation, sludge, and varnish. This formulation helps improve fuel economy and performance in gasoline engines. Includes emission system, frequent restart, LSPI, timing chain, and turbocharger protection. Adds protection for engines running on ethanol fuels up to E85.

TechSYN Full Synthetic dexos1™ Gen 3 Motor Oil is a licensed GM dexos1™ Gen 3 product. Meets or exceeds API Service Category SQ, SP, SN, SM, and ILSAC GF-7A requirements. Meets Toyota and Mazda specifications, and Honda service fill specifications.

Meets or exceeds specification requirements, including:

- GM dexos1™ Gen 3
- GM 6094M
- Toyota
- Mazda
- Honda (Service fill)
- Ford WSS-M2C962-A1 (0W-20)

SYN Blend Semi Synthetic Motor Oil

5W-20 • 5W-30 • 10W-30

API SQ/SP/SN Plus/SN • ILSAC GF-7A

Benefits

- Provides enhanced piston cleanliness
- Provides increased emission protection
- Superior protection against normal engine wear

Product Application:

Signature Lubricants SYN Blend Semi-Synthetic is a premium, high-detergent motor oil. This formulation helps improve fuel economy and performance in gasoline engines — includes emission system, frequent restart, LSPI, timing chain, and turbocharger protection. Follow manufacturer's recommendations for viscosity grade and API service category.

Full Synthetic Multi-Vehicle ATF Automatic Transmission Fluid

For automatic transmissions requiring Mercon®/Mercon® V/Dexron®-III/ATF+3/TF+4

Benefits

- Improved oxidation and thermal stability
- Full synthetic formula
- Outstanding low-temperature performance
- Superior anti-wear protection
- Improved torque transfer
- Applications include nearly all car and light truck applications

Product Application:

Signature Lubricants Full Synthetic Multi-Vehicle ATF represents the latest technology in full synthetic automatic transmission fluids. It is specifically formulated for the newest generation of high-efficiency transmissions and is also a fuel-efficient choice for older models.

Signature Lubricants Full Synthetic Multi-Vehicle ATF is recommended for a wide range of passenger cars and light-duty trucks, including GM, Ford, Toyota, Honda/Acura, Nissan/Infiniti, Hyundai/Kia/Mitsubishi, Mazda, Subaru, and Volkswagen. Check the owner's manual for specific recommendations.

For automatic transmissions requiring:

- JASO M315-2013 1A-LV GM
- Ford
- Chrysler
- Toyota/Lexus/Scion (T-III, IV, WS)
- Honda/Acura (ATF Z-1, DW-1)
- Nissan/Infiniti (Matic D, J, K, S, W)
- Hyundai/KIA (SP-II, III, IV, Red-1K)
- Isuzu (SCS, ATF II, III)
- Mazda (F-1, FZ, M-III, T-IV, MV)
- Mitsubishi (Diamond SP, II, III, ATF J2, J3)
- Subaru (HP)
- BMW (LA2634, LT71141)
- Mercedes-Benz (236.10, 236.15, 236.3, 236.5, 236.7, 236.9)

Global Antifreeze and Summer Coolant

Available as Concentrate and 50/50 Blend

Benefits

- Formulated for use in all American, Asian, and European automobiles
- Features a patented non-2-EH formula that is phosphate-free and silicate-free
- Amber color will not change the current antifreeze color when used for topping off
- Meets ASTM D-3306 + ASTM D-4340

Product Application:

GoldenWest Global Antifreeze and Summer Coolant features a patented advanced organic acid technology. GoldenWest Global Antifreeze and Summer Coolant contains inhibitors that provide maximum protection from freezing to -84°F and boil-over to +276°F. Its patented formula protects all metals, including aluminum, against damaging rust and corrosion when used as recommended.

Meets or exceeds specification requirements, including:

- ANFOR R 15-601
- BS 6580 (British Standard)
- Chrysler MS7170
- Chrysler MS9769
- Ford ESE-M97B44-A

ELC Antifreeze and Summer Coolant

Extended Life Coolant • Available as 50/50 Blend

Benefits

- Intended for use and compatible with ANY OAT Extended Life heavy duty antifreeze/coolant
- For use in ANY diesel powered commercial vehicle engine or stationary engine with aluminum and other engine metals
- Advanced formulation is based upon a concentrated blend of premium long-lasting inhibitors
- Meets ASTM D6210

Product Application:

GoldenWest Heavy Duty Nitrite Free Extended Life Antifreeze & Coolant (ELC) is an Organic Acid Technology (OAT) that is intended for use and compatible with ANY OAT Extended Life heavy duty antifreeze/coolant in ANY diesel powered commercial vehicle engine or stationary engine with aluminum and other engine metals. Its patented, technologically advanced formulation is based upon a concentrated blend of premium long-lasting inhibitors designed to provide up to 600,000 miles/12,000 hours* of protection against temperature extremes, rust, corrosion, scale, and premature water pump failure. GoldenWest Heavy Duty Nitrite Free Extended Life Antifreeze & Coolant (ELC) is available in Concentrate and Prediluted 50/50 formulas.

*These values are representative of current production. They may vary within modest ranges.

Donaldson delivers the most comprehensive line of filtration solutions for your ag equipment.

Downtime means lost revenue. To keep your equipment in the field, you need filters that deliver **superior performance** – and a **reliable supplier** that offers complete coverage.

Filters are an important part of any effective maintenance program. They need to withstand the harsh demands of the field. Donaldson filters deliver the right combination of quality and value that help to keep your operation running smoothly.

Donaldson Delivers.

Innovative filtration solutions for engines, equipment and the people who use them.

- **Industry-Leading Technology** – uncompromising product quality
- **OE Grade** – Donaldson is the “first-fit” choice of equipment manufacturers around the world
- **Broad Product Coverage** – air, lube, fuel, coolant and hydraulic filters and systems, plus exhaust, accessories and more
- **Consistent Product Availability** – the filters you need, when you need them
- **Comprehensive Customer Service** – experienced and knowledgeable sales and technical support teams
- **Distribution That Makes a Difference** – support from exceptional partners that know Ag equipment and are quick to respond
- **Warranty** – industry leading coverage
- **Far Reaching Field Support** – Donaldson Representatives are nearby and ready to assist

Complete Coverage from End to End

Filtration Products for Agricultural Applications

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Air cleaners and pre-cleaners

The company that invented air cleaners for heavy-duty engines offers the broadest range of air cleaners and pre-cleaners available for ag equipment.

Replacement filters

Donaldson delivers superior protection for heavy-duty off-road equipment with a full line of premium filters, including those with PowerCore® filtration technology.

Replacement filters for Mann+Hummel® Europiclon® and Cummins® OptiAir™ Air Cleaners use high-efficiency media, vibration-resistant RadialSeal™ design and rigid structural support to deliver superior performance and proven protection.

Mann+Hummel® and Europiclon® are registered trademarks of Mann+Hummel®. Cummins® and OptiAir™ are trademarks of Cummins Filtration, Inc.

Donaldson Blue™ air filters with Ultra-Web® fine fiber technology protect engines by providing better initial and overall efficiency compared to conventional cellulose media.

Hydraulic Filtration

Performance under **any** pressure. Protect expensive hydraulic components with Donaldson's complete line of spin-on, cartridge-style and in-tank hydraulic filters.

Low, medium and high pressure housings and filters, including Donaldson Duramax®, to protect machinery and hydraulic components in hundreds of heavy-duty equipment applications.

Cartridge style DT filters, using Donaldson Synteq™ media technology, help extend the life of heavy duty equipment.

T.R.A.P.™ Breathers collect and expel moisture from hydraulic and lube reservoirs – they also prevent particulate from entering.

Off-line filtration cleans new lubricating oils and achieves baseline ISO cleanliness levels – prior to dispensing into equipment, gearboxes and reservoirs.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.

Donaldson BLUE™

Lube filters capture metals, soot and contaminants to maintain higher cleanliness standards.

Coolant Filtration

Donaldson coolant filters remove contaminants and maintain cooling system balance.

Coolant filters help keep hot-running engines cool and reduce downtime.

Donaldson BLUE™

Filtration Products for Agricultural Applications

Fuel Filtration

Donaldson filters help prevent premature pump wear and injector clogging by delivering clean fuel to your engine. They're a better way to filter fuel.

Fuel filters

Donaldson provides a range of fuel filters that protect injectors and help extend equipment life.

Replacement filters for Cummins® engines Twist&Drain™ filters with integrated WIF sensors simplify the complicated task of removing water.

Replacement filters for Racor® fuel systems

Twist&Drain™ filters with threaded sensor ports work with existing WIF sensors.

Replacement filters for Stanadyne® Fuel Manager® FM 100 fuel systems

Universal interface allows one part to fit multiple applications.

Clean Fuel & Lubricant Solutions™

Don't be slowed down by dirty fuel, fuel chemistry issues or water in your fuel. With clean diesel you can **Achieve More**. Learn more at mycleandiesel.com.

Clean Solutions fuel & lube filters provide unrivaled cleanliness in a single pass.

Clean Solutions filter manifolds expand capacity or increase flow rate beyond the capability of a single or dual filter head.

T.R.A.P.™ Breather and Active Reservoir Vent protect the contents of your storage tank from airborne moisture and particulate contamination.

Bulk hP filters and heads provide high efficiency filtration in a single pass, at system pressures up to 1000 psi (69 bar).

Mufflers and Exhaust Accessories

Mufflers A complete line for medium- and heavy-duty diesel powered equipment.

Clamps and accessories Reduce exhaust leaks and noise with our full line of exhaust clamps.

Filtration Accessories

Reduce costs and eliminate over-servicing with our complete line of air intake, engine liquid and hydraulic filtration accessories.

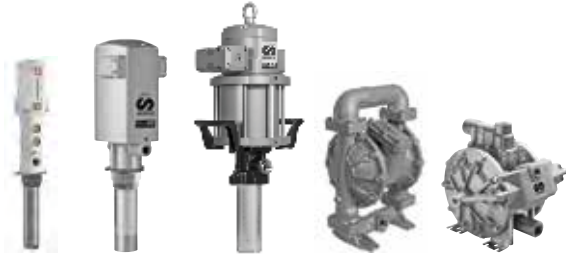

Strong & Reliable Pumps

It all starts with the pump - the heart of the system. SAMSON's quality is based on a strong pump platform.

Oil, grease, DEF, coolant, gear lube, windshield wash or used oil; SAMSON has you covered.

Durable Reels & Precision Dispense Handles

SAMSON's hose reels are built to last. Available in open or enclosed models in dual arm steel and single arm aluminum.

SAMSON's proven handle design will work in the most demanding environments, chose from digital or mechanical versions.

Efficient Evacuation Management

We offer the widest range of extractors and evacuators in the market.

Used fluid collection units are available in 18 and 27 gallon units.

We also offer Cubet Bulk Fluid dispensing packages & DEF dispense solutions

OUR STANDARD PREMIUM TANK PACKAGE

(It's ANYTHING but standard!)

This tank package includes all the features you would expect with the quality you demand! Combining a 275SW (single wall) UIL 142 rated tank with a high volume, dependable Samson 3:1 lube pump and reel mean the highest level of performance. The unit also features a high-flow digital hand meter, digital tank monitor with remote volume info via a smart phone, a 1/2" high pressure hose, manual gauge, and a 1.5" heavy-duty fill cap, plus long-lasting, high-quality powder coat paint to keep the shop looking neat and a 3" EV (Emergency Valve). At 60" long, 27" wide and 44" tall, this tank can be installed in even the tightest spots. It can also be "chained" to double, triple or even quadruple capacity while maintaining all the advanced features and safety of a single tank.

Package can also include:
GPS digital monitor with a
4 year battery life at no cost

High Flow Digital Hand Meter dispenses up to 8 gallons per minute

High Volume Lube Pump

1/2" 50" Hose and Reel

275 Gallon Single Wall Tank, UIL 142 Rated

Pump Oiler
Regulator
Water Separator

TEXAS ENTERPRISES, INC.

OUR EMPLOYEES. OUR CUSTOMERS. OUR PARTNERS. TO US, YOU'RE FAMILY.

Your success drives everything we do. You're the reason we go the extra mile (and a whole lot further) each and every day. Providing the most comprehensive catalog of automotive maintenance products. Partnering with the top brands and suppliers in the industry.

Delivering exceptional customer service, day or night, rain or shine. Creating enduring relationships that ensure quality and consistency.

Because, when it's all said and done, that's what you do for people you care about. Those who matter to you most. You deliver for them.

We Care. You Matter. **We Deliver!**
